PLAYMAKER

SCENARIOS

Sixteen game moments: inbounds plays, late clock, the coach's call. Each one sets up the court, starts the clock part-way down and asks the offence for one thing: **an Excellent look, 30 or more.** Ten minutes each. Crunch Time: three cards each, add up the scores.

PLAYING A SCENARIO

- Pick a card. Take the two listed teams and set the pieces on the squares shown, with the arrows as drawn.
- Put the shot clock marker on the card's clock. Fill both pools. Then play by the normal rules, offence first.
- The goal is the **shot value** of your look: **30 or more** beats the scenario. Fouls and bonuses still add to the possession score.
- Swap roles and play the card again: the better score wins. On Late Clock cards, compare results first (win, then tie, then loss); shot value breaks ties.

INBOUNDS

- The inbounder (dashed ring) sits just off the court, beside the square shown, holding the ball. It cannot move.
- You have **two phases** to complete a pass from the inbounder. The clock does not run yet.
- Once the ball is in: reset to a new phase, put the clock marker on the card's clock, and the inbounder may step onto the court.
- Not in after two phases: a **turnover, –5**. Play on from where everyone stands, ball with the player furthest from the rim (offence picks if tied), clock on the card's number.

COACH'S CALL

Before setup, the offence secretly writes one player down: the target. Anyone may still shoot, but if the target takes the shot, add the bonus for how good the look was.

POOR	OKAY	GOOD	GREAT	EXCELLENT
+0	+2	+5	+8	+10

Reveal the paper after the shot. Executing the coach's intent is worth the most when the look is great.

LATE CLOCK

- The clock starts low, so every token matters. Run out of clock and it is a turnover, –5, plus a forced shot from where the pieces stand.
- **Need a Three:** only a three-point shot scores. **Two or Three:** an Excellent three wins; an Excellent two ties.

CONSTRAINTS

- The card states the rule that bends: tokens already spent, a locked star, a defence one foul from the bonus, a mismatch from a switch.
- A locked player (grey lock token) unlocks at the next phase reset, as normal. A T on a piece is a screen still standing.

FOR COACHES

Each card is a drill. Set it, let the player run it, then ask what the defence gave up and why. Play it again from the other side.
